

PRESS RELEASE

3M appoints MC Products as UK Distributor for marine flooring

MC Products has been appointed UK Distributor for 3M's customised entrance matting system. MC Products manufactures [FloMAT](#) non-slip waterproof flooring, and is the UK Distributor for Tek Dek, the market leading teak decking alternative. "3M matting systems are delighted to be working with MC Products in providing specialist marine flooring solutions to the marine and leisure markets", said Simon Newington, Business Development Manager in the Building and Commercial Services division of 3M UK plc.

MC Products will be marketing [3M entrance matting](#), a heavy-duty PVC composite matting designed to protect building entrances from dirt, grit and water. The matting system can be positioned either outside, inside or in recessed wells to scrape soil from shoes and remove initial moisture.

Enhancing safety by reducing the risk of slip incidents, entrance matting plays a vital role in **reducing daily maintenance costs** by trapping and holding dirt at the door. It also creates a welcoming 'feel' for visitors, and helps develop a highly efficient entrance area without compromising on interior design.

Each entrance mat can be customised to reflect corporate colours, a logo or company catchphrase, using precision cutting and bonding technology. Impervious to sunlight, these long-lasting logo mats are a **tough and durable solution** and can be used in all types of environments.

By combining attractive styling and great performance, entrance matting reduces maintenance costs and **increases safety**. These entrance mats offer excellent dirt removal, outstanding appearance retention and guaranteed durability, and come with a 2 year guarantee.

3M entrance mats have added benefits:

- high quality protective product which traps dirt and moisture
- eliminating the possibility of slipping and falling
- weather resistant and quick drying
- low maintenance and easy to clean in-house
- suitable for exterior and interior use
- no installation necessary
- 2 year guarantee

Call +44 (0)1243 430892 from overseas, or 0844 870 0892 from UK, or email sales@flomat.co.uk for more information.
